

Medicine Policy

We are only able to administer prescribed medication. It must be labelled with the child's name and dosage as stated by the pharmacy. We will set up a new record of medication for your child on our App and you will be required to acknowledge it.

We cannot administer Calpol or Nurofen unless prescribed.

Should your child be prescribed Antibiotics, at least 48 hours must have passed from the first dose before they can return to us.

If your child has acute allergies or needs an EpiPen please discuss the matter with us as there are strict procedures regarding allergens and the storing of devices and care plans, please see separate policy, also in some cases staff may require specialist training.

We are committed to ensuring that the Medicine policy is a living document which is reviewed and updated at least annually.
